7. ☐ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____.

Reasons For Allowance:

The following is an examiner's statement of reasons for allowance: The prior art does not teach all of the limitations of the claimed invention including:

- **In claim 1**: an unmasking step of removing the resist from the nozzle holes after forming the non-wetting layer.
- **In claim 2**: a bar coating step of disposing a bar on said resist disposed on the inside surface, and moving at least one of the bar and the substrate relative to the other in a direction parallel to the inside surface such that portions of the resist protrude outwardly from openings of the nozzle holes on the outside surface of said substrate.
- **In claim 5**: a masking step of applying an insulating material on the inside surface and charging the nozzle holes with the insulating material; a surface smoothing step of smoothing the outside surface;
- **In claim 10**: a masking step of applying an insulating material on the inside surface and charging the nozzle holes with said insulating material, by superposing said substrate on a resist layer formed of a resist as the insulating material, such that the inside surface is brought into contact with the resist layer, so that the nozzle holes

are charged with the resist owing to a capillary action of the resist.

Accordingly, claims 1-10 and 22-24 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
